The Evochlor Wireless chlorinator provides the perfect balance of innovation and simplicity, with cutting edge technologies and intuitive controls. The unit can be operated with the supplied remote or with any Apple or Android device, where the timer schedules can be set via Bluetooth.

evochlor®

SALT WATER CHLORINATORS

The Evochlor Advantage

- Wholly developed and manufactured in Australia.
- Control with provided remote (RF) or with mobile device (Bluetooth).
- Additional auxiliary outlet provided as standard for items such as lights or pH doser (maximum electrical draw 1 amp).
- Proven reliability, even in the harshest Australian conditions.
- Salt and mineral salt compatibility.
- Advanced microprocessor controlled PCB.
- Brown energy and overload protection.
- Low salt operation of 3500 to 4500ppm.
- Bright display LEDs.
- External reset button (no internal fuse).
- 10% incremental adjustable chlorine output.
- Energy efficient design with low kW use.
- High grade long lasting electrolytic plates.
- UV and impact resistant cell housing.
- Easy to install into new or existing pools.

Warranty

- 3 year full warranty on Power Pack.
- 3 year full warranty on Electrolytic Cell.
- 12 months for commercial installations.

Specifications

Model	Output (g/h)	Power Use (kW)	Cell Plumbing	Wireless Remote	Pool Size (L) Temperate Climate	Pool Size (L) Tropical Climate
