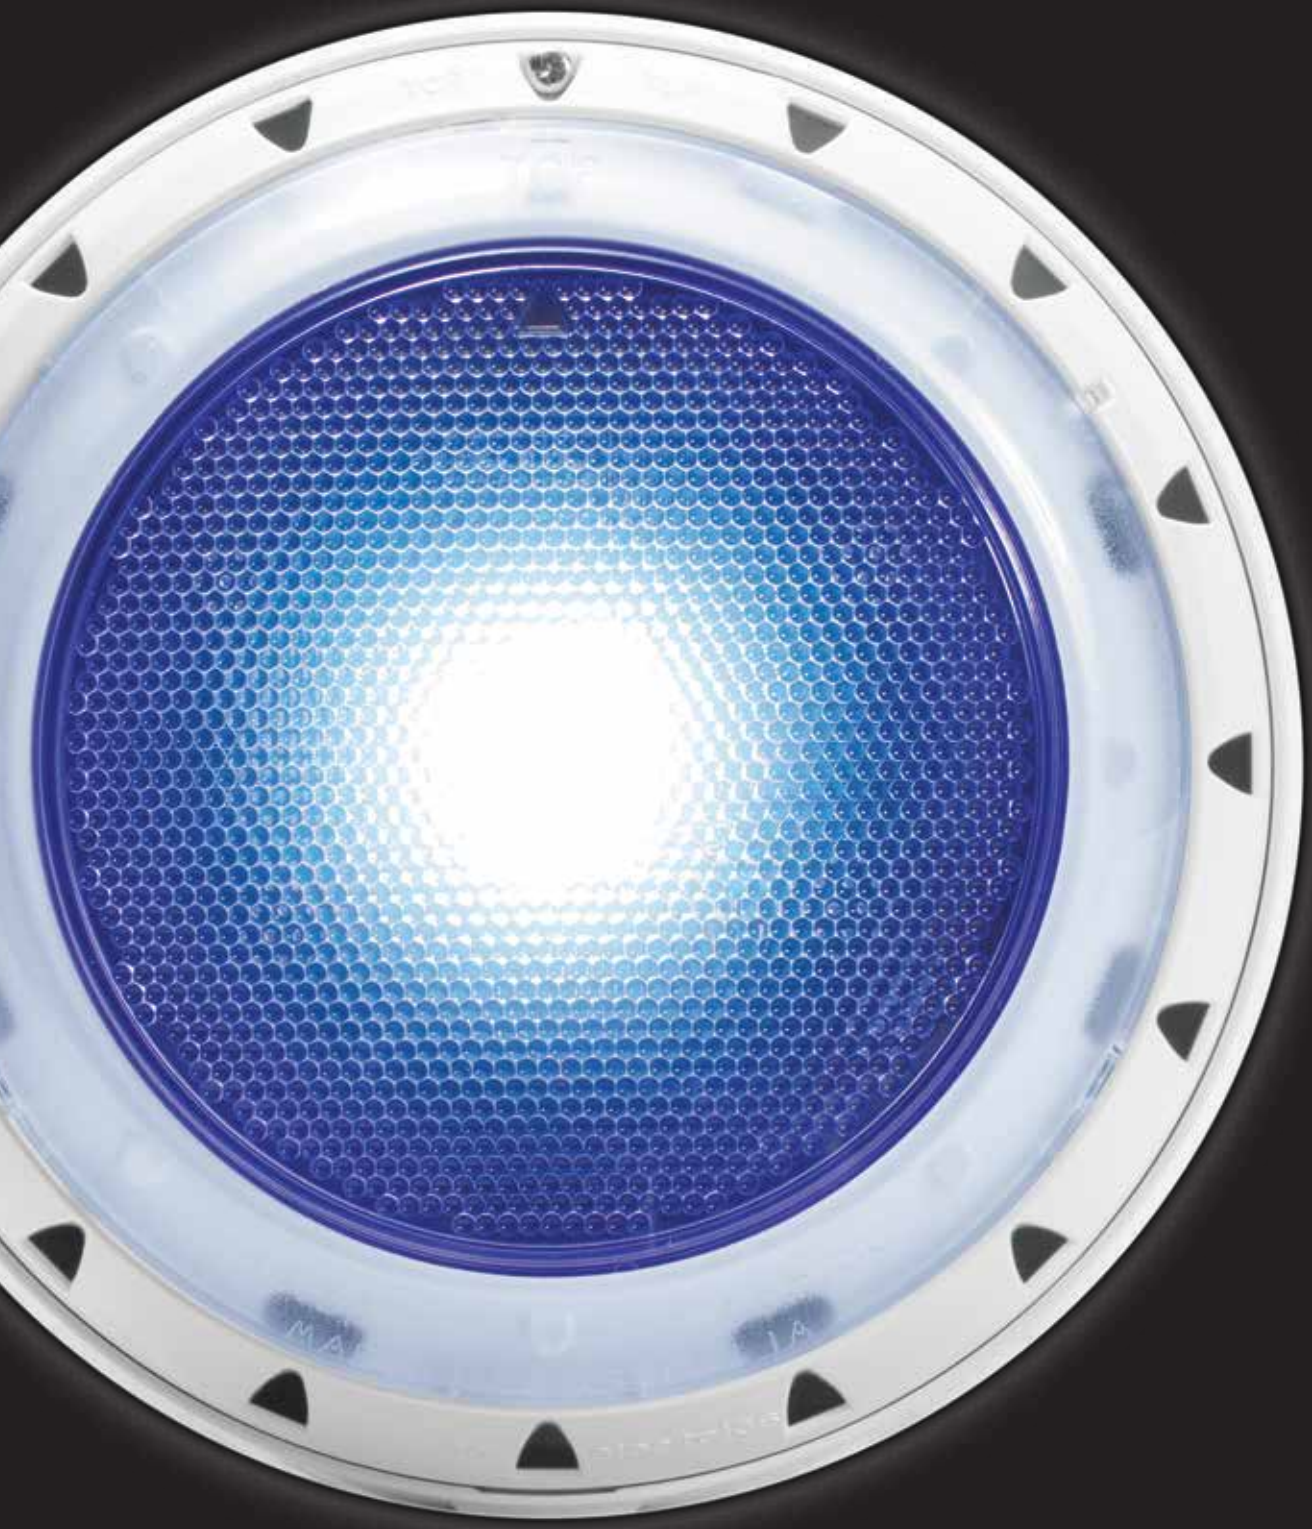
GK SERIES



SIMPLE & RELIABLE
WITH STUNNING RESULTS

SPA ELECTRICS have been developing underwater lighting systems for over 35 years so you can rest assured that we have the experience and expertise to make your pool look truly spectacular!

photon
GK SERIES

Increased Safety

Bright and even illumination increases safety in and around the pool area for evening and night time swimming.

Energy Efficiency

The latest LED technology coupled with Spa Electrics' custom engineered driver technology, delivers greater illumination than a 100W halogen light, while consuming less than 12 watts of energy.

Superior Brightness

Available in single and multi-colour models, this high output LED provides superior light distribution and seamless colour transitions.

Innovative Design

Slotted rim enhances water flow and expels stagnant water, while external heat sink technology optimises cooling and efficiency.

Durability

Captive back plate design provides robust support and added strength that ensures long lasting product integrity.
